**Creation tour  
of Yellowstone  
National Park"**

University of Northwestern St Paul, 3003 Snelling Ave. N. Roseville MN Totino Fine Arts, Room 2106

Massive volcanic eruptions resulted in today's amazing features at Yellowstone National Park. For many years, Dave and Mary Jo Nutting of Alpha Omega Institute have been leading Creation tours of this fabulous place which is unlike any other national park. Dave's beautifully illustrated PowerPoint presentation gives you a chance to virtually tour many of the geyser and hot spring sites as well as the wildlife that inhabit that region. You will see many evidences for design in those animals and also see how God has made beauty out of destruction, understand the timeframe that formed Yellowstone including the Flood, volcanics, tectonics, glaciation, formation of the Grand Canyon of the Yellowstone -- all the way up to present.
