Facts that Support Creation and the Bible

Brian Young

of Creation Instruction Association

www.creationinstruction.org

Northwestern College, 3003 North Snelling, Roseville, MN,
Totino FAC2128 (old 116),

For updates and more information, visit www.tccsa.tc

Come see how some basic life principles support the truth of God and His creation. This will be edutainment for the entire family with scientific demonstrations and important information to build a solid foundation upon God's Word.

Brian Young is one of the most popular speakers with young people and his talks are full of surprises.

His web site contains many valuable resources and the locations of the creation camps he teaches in the summer.
