

Merry Christmas

2023

Merry Christmas from Amy and Russ,

Amy and I are thankful for so many who pray for us or send support for our mission thank you so much.

We are thankful that 6-month tests show Amy is free of ovarian cancer and no occurrence of breast cancer now for two and a half years.

James 1:17 says that everything good that happens to us is from God our father above. We are thankful for Jesus' birth and blessings he gives to us each day.

We pray you have a great Christmas this year, and we pray for the peace of Jerusalem that God will supernaturally protect His people from extinction.
Love, Russ and Amy

Christmas comes but once a year,
But Jesus' love is always near.

He came to save us from our sins,
All we do is ask Him in.

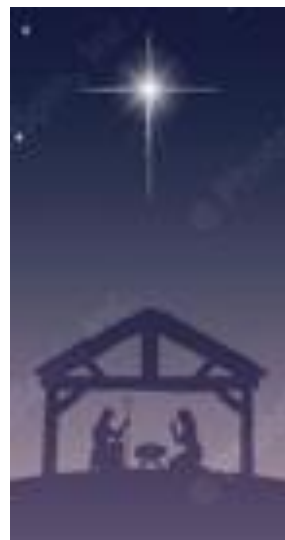

Soon He will return to us,
To take us home from all this fuss.

Loved ones we will soon see again,
United in heaven together with them.

Joy we have with loved ones here,
So glad to have them very near.

We count our blessings nearly every day,
For friends, family, health come what may.

We pray for new year better things will come,
God bless you all and everyone. RM

I sent this to a few of you but include it for those that may have missed it.

For 4000 years Jews have lived in the Promised Land of Israel. 1921 BCE (BC) to 2023 CE (AD)

I found a list of notable events in the development of Jewish history. The list covers 28 pages. This list shows that there has never been an absence of Jewish people living in their homeland of Israel since the time of Abraham. (1921 BC)

https://en.wikipedia.org/wiki/Timeline_of_Jewish_history. There has always been, what the Bible calls, a “remnant” of Jews in the land of Israel. Also, they did not change their country's name to Palestine.

Roman ruler Hadrian renamed the Israelite province of Judea with a Roman Latin name “Syria Palaestina” in 131 AD, and attempted to root out all Jews and Judaism. (Judea was named after Judah the 4th son of Jacob, Abraham’s grandson) Despite Hadrian and other rulers, Jews have been on their land for 4000 years from Abraham to 1948 statehood when it again was called Israel. Many claim the Jews are colonials, which means they took the land from someone else. It is just the opposite. Other nations have moved in and tried to eliminate the Jews from their own country for thousands of years. This idea that the Jews stole it will be reinforced again in the weeks ahead as the war in the Middle East unfolds. I cut it down to 9 pages. If you want it, please e mail me.

Pray for the peace of Jerusalem. Ps 122:6-9
