The Place of Intelligent Design in Evangelism, Discipleship and a Biblical Worldview

7:30 PM, September 20, 2011, Room F2128 Totino Fine Arts Center, Northwestern College, Roseville

Dr. Don Bierle, scientist, author and international speaker will update us on how I.D. can be used to reach out and touch unbelievers. He is an exceptionally gifted speaker with a heart to tell the world the good news.

The intelligent design movement has been praised and maligned - interestingly, believers and unbelievers line up on both sides. It is more profitable to separate the message from the messengers in order to restore I.D. to its Biblical role as revelation. As such, I.D. is the first line of rebuttal of the atheist/secular humanist's worldview, a powerful tool to engage unbelievers to consider God's fingerprints in history as well, and confirming evidence to strengthen the faith of believers. Abandoning intelligent design results in a slippery slope that erodes away a Christian perspective of mankind, nature and history. Correlation of I.D. with the Bible, its strengths and limitations, and the use of it in my practical experience as an evangelist will be discussed. Check out Dr. Bierle's web site www.faithsearch.org.

All meetings are free and open to the public, an offering will be accepted.

Have you considered...

...the bird called the whip-poor-will. I remember sleeping at grandma's and hearing the night music of the whip-poor-will putting me to sleep. These jay-sized birds make their home where jack pine forests or oak savannas meet meadows and pastures. The nocturnal bird usually hunt by opening its mouth to gather insects of mosquitoes, moths and beetles. On a moon-lit night you might see it doing aerial stunts like banking, dipping, diving and hovering to catch its prey. They don't build nests but lay two eggs on the forest floor in fallen leaves. Both parents care for the young, making frequent hunting trips bringing back regurgitated bug porridge. Here is the unbelievable feat - whip-poor-wills time their hatch to occur 10 days before the full moon. Why? When the chicks are at their hungriest, the insects are the easiest to see. How did the first whip-poor-will come up with this idea? Well, a bird does not think about this, it comes about by instinct. When we see an instinct we know there must be an instinct maker and that is God. So, when you hear the call of a whip-poor-will, think of God, the instinct maker.

...stop and consider God's wonders. Job 37:14

Start your own Creation Video Club

Calvary Memorial Church in Wayzata has a creation video night the 1st Sunday of each month. Someone in Prescott, WI plans to start one real soon. If you don't live real close to those places, why don't you start one too? Videos are sold for "home use only". If you show one in a public place including churches, check with the video producer for permission. Let us know where and when your show starts so we can get the word out. Pop corn not required.

Coming Up . . .

Oct. 18—Dr. Ross Olson, New Age, next step in Evolution

Nov. 15—Bruce Malone, Lessons from Ukraine - Evidence We Should Have Presented

December—No meeting or newsletter

2012—Expect more great speakers and topics.

Pray that God will provide the topics that you need to know, so you can tell others of His good news.

CREATIONWISE

TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.

We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.

We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.

We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.

Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.
