## Evidence for the Flood of Noah

Tuesday February 20, 2024, 7:00 PM, Univ. of Northwestern, Totino Fine Arts Center, Room F2106

Can you explain where the water for a world-wide flood would have come from, and where it all went?! Many Christians can't. Understanding the flood (the purpose, the causes, the aftermath and the evidence) is very important to an understanding of a biblically sound creation model.

This session covers the basics about this event, and also includes a video & PowerPoint presentation on the "Hydroplate Theory". This theory is a biblically accurate and scientifically feasible portrayal of the flood event.

Mike Snaveley is the founder and director of Mission: Imperative. He grew up in Africa as a missionary kid and has worked as a park ranger, wildlife artist and College teacher. He's a fascinating speaker who knows the Creator and wants to tell everyone about His creation.

Updates at [www.tccsa.tc](http://www.tccsa.tc) All meetings free and open to the public.

Have you considered ...

**...the earth's crust? It is covered with 75% sedimentary rocks, including most mountain tops. Sedimentary rocks are particles that settle out of water into layers. All sedimentary rocks are laid down in water. These particles were eroded, transported and deposited by water. This is exactly what would happen in a flood. How would sedimentary rocks get to the top of these mountains? It would take a lot of water, like the flood of Noah's time. As the Bible says, "the very rocks will cry out" with the truth.**

**...Stop and consider God's wonders**

### Annual report from TCCSA

There is interest from members and friends of TCCSA to know how we are doing. Last year was an interesting year, our meeting attendance is still not as high as before Covid. Last year we averaged about 69 per meeting. Four meetings had our speakers speaking via Zoom from another state so those always have a smaller group meeting at Northwestern. Last February the meeting was kind of snowed out and only 20 showed up.

We give our speakers an honorarium of \$100 for local and Zoom speakers and \$200 for distance speakers. In addition we pay for travel expenses up to \$400. We started with \$9786.31 in the bank and ended with \$9641.22. We didn't quite break even but not too bad. We also have books and other resources available for sale but when a speaker brings things to sell we usually don't sell our resources so only made \$251.00 in sales. We dropped the large snail-mail newsletter and reduced our mailing from about \$90/Month to \$19.

### Coming Up (Lord Willing)

Mar. 19—Steve Law—Location of Mount Sinai

Apl. 16—Jay Seegert—TBD

May 21—Helmut Welke—The Ice Age

Jun. 18—Don Slinger—God's Pharmacy

### TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

Your editor became involved with TCCSA in 1996 when I took the job of editing these newsletters. At that time our board included Jerry Roth, President, Beatrice Flaming, Treasurer, Bob Helfinstine, Rev. Walter Lang, Al Heitkamp, Ross Olson and Russ McGlenn are the ones I recall. Jerry moved to Tennessee soon after I started and Bob replaced him as president.

Bob and Jerry investigated the Human and Dino tracks found in rock located in TX and wrote a book called *Texas Tracks and Artifacts* that some of you have copies of. The board of directors is responsible for lining up speakers and venues to meet in. If you would like to be more active let it be known to a board member at a meeting. We especially need someone who is technically savvy.
