Miracles of the Most High God in Ancient China

Tuesday November 19, 2024, 7:00 PM, Univ. of Northwestern, Totino Fine Arts Center, Room F2106

Did you know that the ancient Chinese were not atheists but at the beginning of their history worshiped and believed in the Most High God of Abraham, Isaac and Jacob.

Remember too that Abraham's wife Sarah was unable to have children until the Most High God miraculously removed her barrenness and enabled her to conceive her son Isaac at the age of 90.

Amazingly, one of the earliest Chinese Empresses called Jiang Yuan had a similar experience and after sacrificing to the Most High God, she too miraculously gave birth to a son who later became Emperor of China! Many important people mentioned in the Hebrew Scriptures had supernatural dreams from the Most High God, such as Pharaoh King of Egypt and King Nebuchadnezzar of Babylon. Well so did the Chinese Emperors Wu Ding and Wu!

Miraculous too is that the Most High God enabled the ancient Chinese to record an identical version of the Creation story as recorded by the great Hebrew prophet Moses in the book of Genesis.

The ancient Chinese kept this record hidden in their ancient pictographic script inscribed on tortoise shells and the scapula bones of animals -- termed 'Oracle Bone Writing'.

Author and speaker, Richard Broadberry, lives in England and will be joining us via Zoom this month. Richard lived and worked in China for several years and has studied the Chinese history he will be speaking to us about.

All meetings free and open to the public.

Have you considered ...

...that man was intelligent in the past; consider the Vikings and their

fabled magical sunstones. These sunstones or Iceland Spar or the transparent crystal called calcite would aid these ancient mariners when the days were so cloudy that the sun was obscure. Vikings write of using these prized sunstones to navigate the perilous Arctic seas. This transparent Island Spar crystal creates a double refraction or image. You can see this for yourself by putting Iceland Spar on a newspaper and seeing a double image appear.

Vikings would mount this crystal of Iceland Spar into a wooden block and rotate it until the two bright images equalized; from that position the Vikings could determine the sun's position.

(Knowing the sun's location determines the latitude.) Vikings as primitive, unintelligent people, hardly! God created man in His image (Gen. 1:26) and then sin entered in. Instead of evolution's idea that we are moving up from the apes, we were created intelligent from the beginning.

TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

Twin Cities Creation Science Association (TCCSA) is a local non-profit, volunteer-run organization dedicated to spreading the fact that scientific evidence points to creation and the accuracy of the Biblical timeline. Genesis is very clear on when and how God created all that exists.

If you know someone who would like to get involved in the technical part of making our programs to work online, we need some help with that.

TCCSA has local meetings 11 or more times per year. We don't stop there, programs are live-streamed to the whole world via YouTube and Zoom and then stay on You/tube and Rumble where people in many countries watch them. Places include countries where Christianity is not allowed.

The University of Northwestern in Roseville provides a meeting place since the 1970s. We pay speaker's travel expenses and a small honorarium. We also need good equipment to make it all happen. We invite you and your church, friends and family to attend our meetings in person or online. We are looking for churches and individuals to help support us as a mission to the whole world.
