

"Defending Biblical Truth"

Tuesday January 21st, 2025, 7:00 PM, Univ. of Northwestern, Totino Fine Arts Center, Room F2106
Danzil Monk Sr. defends Biblical Truth against Atheist Evolutionists and other God deniers and haters. He helps believers to be more prepared when they are in the public arena discussing biblical truth and science.

Mr. Monk retired as a college administrator where he found a huge bias against Creation and **Intelligent Design. In trying to inform professors and students of evidence proving evolution can't work, he experienced censorship.** He wants to help us defend the truth of God and His creation to those we encounter who are misinformed or ignorant of the facts.

He will be coming to us via ZOOM where we can ask questions following his talk. This should be beneficial for all students and anyone interested in helping others to know the Creator and His creation.

All meetings free and open to the public.

Have you considered ...

...our genetic code? Genetic scientists can now track genetic mistakes on the human genome. They are finding that each generation is adding genetic mistakes, not getting better. The genetic code is rapidly deteriorating; there is an increasing incident of birth defects. With such rapid deterioration of the human genome, evolutionists can hardly believe that humans exist! **That's because of their assumption, humans have been around for some 100,000 years (some say millions).** Humans do exist and are not extinct. This can only mean that humans have not been around as long as evolutionists assume.

The biblical view that humans have been around for 6,000 years, with only 200 or so generations since Adam and Eve, agrees with what we see in science in the human genome. Adam and Eve were created perfect. Their children married brothers and sisters. It was not until the time of Moses that God prohibited the marriage between close relatives. God saw that this was necessary to minimize offspring becoming deformed. Our genetic code is deteriorating—not improving. **How old is the Earth and it's creatures? When we examine the genetic code, it says we live in a young Earth, just as God tells us in the Bible. "For we know that the whole creation groaneth and travaileth in pain together until now." ~Romans 8:22**

Have You Considered Nov. 13, Von Vett & Malone (Used by permission)

Coming Up (Lord Willing)

Feb. 18—Carl Werner—Frauds at Museums

Mar. 18—Bruce Malone— The Awesomeness of God

Apr. 22*—Andy McIntsh - The wonder of the Human Voice

***Note: April only will be on the 4th Tuesday**

TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

Welcome to 2025

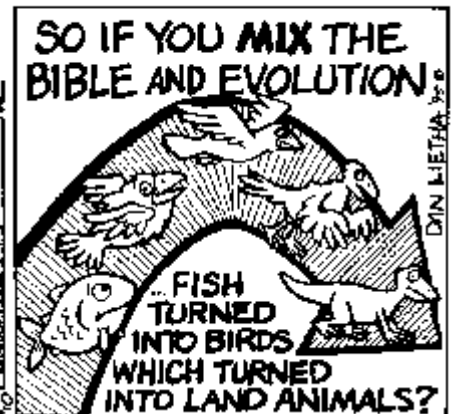

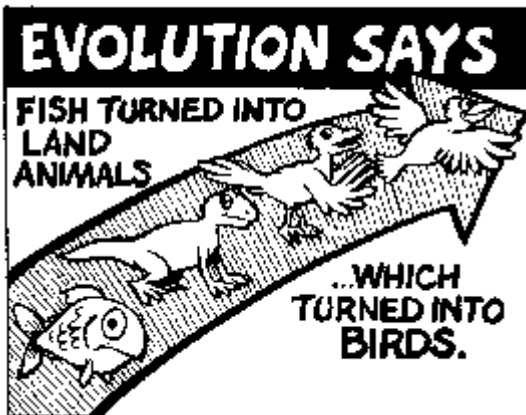

TCCSA will be experiencing some changes in the coming months. Most of you who are reading this on paper shouldn't be impacted very much by the changes.

Our website on the internet is changing to a new format that will have a fresh look. It can still be found at the same address tccsa.tc but it will be hosted by a different company. The redesign is provided without charge by a student at Northwestern. It uses a newer program that is easier to use and which more people know how to use. We are indebted to Emily for her knowledge and many, many hours.

The University of Northwestern will require some changes including a charge for use of their facility and insurance coverage. We have been using their facilities for almost 50 years and we appreciate them very much. Starting in February we will be charged \$100 for the room we use. It's a very nominal charge and well below the normal rate they charge. We will also provide insurance to cover any accidents that may happen if someone is injured while on campus. This will protect them from expenses and is something we should provide no matter where we meet.

We trust God to expand TCCSA's ministry to the world, presenting evidence of His creation.
